

COMMERCIAL.

THURSDAY, NOV. 20, 1856.

Trade of all kinds has been brisk during the past week, and we notice some improvement in sales at auction, which perhaps is the best index of the state of our market. A large sale of clothing takes place to-day at the rooms of A. P. Everett, and again on Tuesday next. M. C. Monseur has a large clothing sale on Friday. The improvement in retail trade is also spoken of by several retail merchants.

The number of whale ships in port yesterday was 68, merchant and war vessels 10, coasters 4; making a total of 82 vessels in port, which is probably the largest number we shall have at one time during this season. The number of whalers yet to arrive at the islands cannot be less than about 40, which is less than the number of arrivals last year after this date.

There have been two arrivals of merchant vessels during the past week, Bremen ship Post, with some 400 or 500 tons assorted mude to Hoffschlager and Staphenhorst, the balance of her cargo being for San Francisco, for which port she will meet with despatch. The Am. brig L. P. Foster, brings a cargo of lumber and spars to Hinchell & Co. She will call for San Francisco about the 1st of December, and will probably carry a full cargo of island produce. The *Frances Palmer* is now fully due from San Francisco, and may arrive any moment. She will bring two large masts, those of Sept. 20 and Oct. 5.

We notice a few transactions of the past week.

BREAD—Sales of medium at 9c; stock of all kinds very limited.

BRICKS—Sales at Auction, 9 M \$14 75.

WOOD—American Oak at Auction, \$11 75 @ \$13 25; stock of island wood in market is very large.

SALT—Considerable demand for export; Sales at \$1 25 @ \$1 50 per bbl.

PROVISIONS—We notice no change from our last week's quotations; stock very scarce.

SUGAR AND MOLASSES—Stock not large; sales molasses at 30 @ 35c; sugar 6 @ 8c.

RICE—Sales of 5000 lbs Manila at 4c, which is the market rate.

COFFEE—The new crop comes in very slowly, but is soon expected; sales at 12c to 14c. We notice sales of our island coffee in San Francisco at the same figure that the Rio coffee commands, 14c.

MONEY—Is scarce and commands for whalers bills 15c per cent; ship chandlers' quotations, though we hear of transactions as low as 13 per cent.

SHINGLES—Stock large, and sales difficult at \$5 25 @ \$5 50.

LUMBER—Very little demand just now; stock large.

CHINA MARKETS.

(From Armstrong & Lawrence's Circular.)

RICE—Has advanced fully 31 per cent since our last, the crops in the neighboring districts having been almost wholly destroyed, by the almost unprecedented heavy rains that have prevailed here for the last two months, whilst, at the North the crop has been destroyed by a drought of equal duration. There can be little doubt, therefore, but that the price of this commodity will continue to advance, and, for a time, at least, something like a recurrence of the high prices which prevailed last year may be anticipated.

Flour—Sale of 500 bags California at \$10, and Gallego and Haxall at \$10 @ 12 per bbl.
